# Who are you?

Why do you care about FOSS  
and Education?

Where are you coming from?

# Your job:

1. Think
2. Share

optional: listen to us

optimize for your insights.

# Problem statement from the world of education

#acronym & what it means  
& why FOSS is a vital feature

how to participate

People learning to use and make technology are too few in number, and they all look alike.

[#hfoss](#) Humanitarian Free and Open Source Software

Curriculum is easily  
remixable. Technology  
for teaching isn't.

Academia, industry,  
and communities only  
see each other on  
“visit days.”

#tos Teaching Open Source

Teachers can't build  
scaffolding for a  
world they haven't  
seen themselves.

The culminating  
experience of one's  
undergraduate  
education is an NDA.
